Hi Dana:

This is the San Jose Water Company building. I am not working on it currently. Juliet was reviewing the plans and had asked me to take a look.

I am not aware of the current scope of work so please feel free to provide your comments.

Of course, we would always request wood to wood window replacements.

They were also going to demolish a portion of the building not built in the period and relocate the pump house?

But I was not given any revised plans or the HP Permit.

Thanks,
Rina

Hi Rina,
Hope you had a great weekend.

Have you been working on this by chance?

Good morning Dana,

Kaitlyn informed me that you had questions about HPAD20-006. Here is the email I sent Juliet about the project and the attachments included. I know that Juliet and the applicant had a meeting later on to discuss the project. That's all the knowledge I have about the project.

Let me know if I can provide anything else.

Bests,

Jacqueline Guerrero

Hi Juliet,

The applicants for this project want to make some exterior modifications to this project. They are proposing new windows and openings on the south/west portion of the building. I have included the application and plans in this email. The building plan check number associated with this project is 19-139651. The architects that will answer any questions regarding the project are Ruth Todd (ruthtodd@page-turnbull.com) and Steven Aiello (aiello@page-turnbull.com). Hope to hear from you soon.

Thank you,

Jacqueline Guerrero
