Subject: RE: 9.2 DSAP D3 meeting?
Date: Friday, August 28, 2020 2:10:26 PM

David, thanks for working with us on the schedule. As you may have seen, communication went out to the SAAG yesterday regarding the schedule. Release of the Draft Environmental Impact Report on the Downtown West (Google/Diridon) project was planned for the end of August. The size and complexity of the project are such that the City and consultant team are still working on this draft and are now anticipating its release later in the fall. At that time, we also plan to release the Draft Design Standards and Guidelines for the Downtown West project, the Draft Amendments to the Diridon Station Area Plan, and the Draft Diridon Station Area Affordable Housing Implementation Plan. At that time, we also plan to release the Draft Design Standards and Guidelines for the Downtown West project. The Draft Amendments to the Diridon Station Area Plan and the Draft Diridon Station Area Affordable Housing Implementation Plan will also be released in the fall.

We'll certainly keep you in the loop as the drafts become available.

Thanks again,
Tim

Hi Tim,

Thanks for reaching out. We appreciate also you and Jose giving us a heads up on the community engagement timeline. In respect to that, we will delay the meeting until October. If you can let us know when the plans draft will be made available, that would be helpful.

Thanks,

David Hai Tran | *Policy & Legislative Director*
