Subject: items at Google Project webpage

Hi – I recently updated www.sanjoseca.gov/GoogleProject to reflect the COVID impact. Some items:

- Does the Dec. 5 summary of comments need to post as promised?
- Have any Google Project memos been written that should post in the Memorandums section? I think they've have been some project updates to Council in the form of an Info Memo... do those count for placing here?
- Please take a look at the revised graphic timeline ... does this look okay? David Keyon mentioned a First Amendment to the EIR ... does that need to be on this timeline, or does showing the Draft EIR and Final EIR suffice? I think the language on the webpage and around the timeline is clear that these are estimated timeframes and COVID could further impact the timeline. Some staff have suggested taking down the graphic, but I think it's very helpful to people who don't understand our processes or the relationship between the EIR phase, development review phase and decision-making phase.

Thanks
Cheryl
