Subject: Google Downtown West Design Workshop: Building Context & Streetscapes

[External Email]

Hi Councilmember Diep,

Following the submission of Google's Downtown West mixed-use development application to the City of San José in October 2019, we launched a series of workshops to gather community feedback on priorities for design standards and guidelines that will shape the look, feel and experiences in Downtown West.

Our next workshop will focus on building context and streetscapes. We will also share a summary of feedback from our previous workshops on parks and open space and how community input is informing the Downtown West Design Standards and Guidelines.

We are offering workshops on two dates. The format and content are the same, so we hope one will work with your schedule!

Thursday, February 20
6 p.m. - 7:30 p.m.
Dr. Martin Luther King, Jr. Library, Room 225
150 E. San Fernando Street, San Jose

Saturday, February 22
1 p.m. - 2:30 p.m.
20 S. Autumn Street, San Jose
