In the draft Project Status Memo that I sent yesterday, I put Summer 2020 for release of both the Draft DSG and Draft EIR. I forgot about that when we talked on the phone!

Importance: High

Hi Lori – Kim mentioned last week that you were going to post a brief message on the project website regarding COVID-19 schedule impacts. Planning has already received a few inquiries on the release date of the DEIR; I want to be sure we are using the same message. Thanks.
