Yes. I do not have much comments this time, except big picture issues, and specific areas already discussed with David. I also plan to attend most of the sessions (i.e., towards the end where they need my input). In the meantime, if there are any hot issues you guys have come across during your review, let's set up at least 1 hour to discuss those issues internally before meeting with ESA.

Hi Robert,

Just checking in, are you planning to submit your comments directly to ESA as you did for ADEIR3?

Thanks!
