Hi Shannon,

Thank you for coordinating the comments on ADEIR 3. I understand about the cat herding needed just to get the DSAP and ADEIR 3 comments. I will review the GHG section today and provide my comments.

Thank you,

David Keyon

Subject: Google ADEIR3: GHGs and Land Use/Shadow Review

Hi David,

Sorry for the late email, but since I'm working late, I'm sure you will be starting work before I do.

Since you reviewed the GHG and Land Use/Shadow sections for ADEIR2, it makes sense for you to review the redline edits to make sure your comments on the previous draft have been addressed. Also, since the GHG analysis is based on the AQ analysis, and your familiar with that section, I'm hoping you can review the GHG section. I'll leave the files on OneDrive and let ESA know our review of those sections will be forthcoming, along with BIO and Noise, which I will review tomorrow.

Due to direction from Robert last week to prioritize the DSAPA description, I spent time coordinating

information for that effort to keep it moving, and coordinating, following up on, and combining everyone else's comments for ADEIR3 has taken up most of my time, so I am behind on review of sections I'm responsible for. I worked extra on Monday, 13 hours yesterday, and will have 13+ hours today, so it's not for lack of effort.

Thanks for your help!
