Mr. Parlej,

We are currently in the environmental review phase for the project and do not have that level of detail. The Environmental Impact Report (EIR) is planned to be release in early October this year and will be posted on the City's [Environmental Review website](#), so you will be able to review the project description with the EIR is release for public circulation.

Also, you can find additional information on the project's website, including the proposed timeline for Planning Commission and City County consideration, at the following link: <http://www.sanjoseca.gov/GoogleProject>. There is a link to the "EIR webpage" on the project website as well.

It's likely that the level of detail you are requesting will not be available until developers apply to the City for building permits, which may be as early as 2021.

Best regards,

Shannon Hill, Planner

Subject: Downtown West mixed-use project by Google

[External Email]

Ms. Hill,

I am writing with a brief question regarding the Downtown West mixed-use project by Google.

I would like to confirm the following information:

-does the project include structured parking (garages) and if so, what scope?

- who is the project architect?
- who is the project contact person with the developer?

We appreciate your assistance in this matter.

Sincerely,

Peter Parlej
