---

[External Email]

Doug,

Per discussion, we will maintain our PES load assumptions with the exception of our early 2021-2022 construction and building loads. Please see the updated copy.

Have a nice weekend and look forward to catching up next week.

Andrew

Hi Doug,

Please find updated loads from Arup attached. Chat in a little bit.

Thanks,  
Andrew

Andrew,

If you can get the load forecast information to us today, we could have a call at 4:30 to discuss it.

Doug

Hi everyone,

I may or may not be available tomorrow, so I'm going to leave it up to Doug and Andrew to coordinate any needed follow-up on the load calcs. If you keep me informed, I'll participate if at all possible.

[External Email]

Thanks for the heads up, Andrew. 9:00 am Friday works for us. If that doesn't work, some of

us are available at 4:30 pm. Though we won't have much time to review, we could at least have a quick discussion.

On Dec 10, 2020, at 11:30 AM, Andrew Breyer <[breyer@google.com](mailto:breyer@google.com)> wrote:

Hi Barry/Doug,

I am still waiting on Arup to get back to me regarding the load calcs? Can we push this back until tomorrow? I have a meeting at 5 PM today to close out with them. I want to give your team a day to be able to review and ask questions, do you have a good slot tomorrow?
