San José City Hall is closed in response to COVID-19.

I am working remotely in accord with governor's and City's direction.

I will monitor email during this time.

12/15/2020 19:19:38	I don't see any space or mention of the SJC-Diridon people mover studied in last year's RFI and mentioned in the Airport Master Plan? Won't it be much harder to integrate later?	I LOVE the pedestrian priority for the new streets.	connection to SJC and integration of the new HS rail station design.		95130		54 male	White or Caucasian	english
12/21/2020 16:12:51	Why is this taking so long? The plans look amazing.	Revitalization of the city.	The slow churning bureaucracy.	I'm not in favor of the project in any way. Health and safety of San Jose residents is not a consideration in this project. Property values of current residents is not a consideration. Pandemics were not a consideration in this project. Where is the nearest healthcare facility and will it be overwhelmed in a catastrophe or pandemic, how many ICU beds will it have? How will it function for city residents in an emergency. Did SJC Office of Emergency Service have input? How will they interface with the project when it is complete? How will EMS or OES respond to the rest of the city? Over population is the biggest contributor to climate change, environmental and habitat destruction and there is no consideration for that in this plan, just more destruction of the environment.	95126				
12/25/2020 15:25:56	Who has the most to gain from this project financially? Will it reduce our taxes? Will it benefit the environment? If so, how? What laws were broken or side stepped, such a CEQA or others? What political favors were granted and to who? What financial favors or benefits were granted and to who? I have trust issues with all agencies, government, corporations and media. There is no accountability or responsibility or truth. What is the "real" truth about this project and not the marketing hype and social media push, specially within and for the community?	That this project will ruin our city and our suburbs and subsequently degrade our way of life in San Jose, everyone's way of life, and, its bad already. What's the upside? I don't see any improvements with this project. Just more focus on downtown. Finally there is a company that can make San Jose Great Again! Please, don't drive another business away, something California seems to be good (and proud..) at.	Transparency, accountability, responsibility and truth in the entire plan and its ramifications and cost to the community. Quality of life for existing homeowners and residents is not considered at all in this plan. It's all about greed and financial gain for the few at the expense of the many long time residents who already live here. We are already feeling squeezed out at every income and lifestyle level, so there is not upside for current residents in this plan. This plan is NOT what we signed up for when we moved here. Where is the benefit for us? Certainly NOT Sam Liccardo becoming the next what ever state elected or appointed political office, that would be for him and not for us who live here.	The purpose of the R1 zone is to stabilize and protect the residential characteristics of district and to promote and encourage a suitable environment for family. The R1 zone is intended to be used only for single-family homes and service appurtenant thereto. I'm in favor of protecting and preserving R1 Single Family Home Zoning in San Jose and California. This plan is not protecting me and my family or our home here in San Jose. It is taking from us, not benefiting us in anyway. So, we are paying for it and don't want it!					
01/06/2021 4:15:51	Nope Will there be any changes to the streets and what affect would occur to the creeks? Any new trails along the creeks? Will any of the housing be considered affordable housing? Would any of the housing be set aside for seniors?		1. Bicycle trails. Is that being included? Love green energy!	Can't wait~	95117			Prefer not to say	english
01/06/2021 18:55:17		Nothing	The size is disconcerting. As many companies leave California for Texas, I worry that Google builds this and then leaves or leaves after approval and nothing gets done.		95008		46 Female	White or Caucasian	English
