Subject: RE: Downtown West: DISC Comments

Good morning Eric,

In follow up to your inquiry below, Karl at ESA provided the following response:

“If you and Eric can simply provide us with some information on the DISC-related topic, we can craft it into a more formal response. Even a series of short bulleted paragraphs would be great. We don’t want you to have to go through all kinds of hoops—we just need enough background information from the City side to develop a response.”

So, there is not a template for your use. ESA just needs more information on DISC planning/coordination efforts to be able to respond. Unfortunately, I do not have the background knowledge so need to rely on you to assist with this response.

Thanks in advance for your help.

Hi Eric,

Thanks for getting back to me. I'm coordinating responses on behalf of ESA, and I'm not aware of any template. However, I'll check if ESA has a format they would like us to use. The master response is regarding future coordination of all the various transportation planning efforts and concern with conflicts, etc.

I will put ESA's comment assignments on OneDrive for your use and follow up shortly with a link, so you have a better idea of what to include for this master response.

Thanks!

Hi Shannon,

Sorry for my slow response.

No, we haven't set up a master response for DISC-related questions.

Would that be in order?

It seems that Lori has done a bunch of related work that we could leverage on this. So I will check in with her as a first step if so.

Also, assuming you do want me to put together a master list, is there is a template that I could use for this? I'd so, that would be a big help.

Best,

ERIC EIDLIN, AICP

Hi Eric,

I just wanted to follow up with you regarding the attached comment letter and proposed master response for the 1st Amendment to the DEIR. Has a master response for future DISC coordination efforts been drafted? We now need to provide the response to ESA ASAP.

Thanks!

Hi Eric,

Please refer to the attached letter. I am forwarding this comment

letter to you, as most of the questions and concerns are regarding future planning efforts for the DISC Concept layout.

Thanks!
