Thanks Larissa,

This is very helpful information. Thanks for sending.

Are you aware of any type of similar public works submittal reference document related to infrastructure projects? I'm cc'ing Duanne and Victoria on the project infrastructure team who have been searching for a similar submittal reference document from the City. Could you check with Tala or another PW team member who might be able to connect them to this information?

Thanks,
Bethany

Hi Bethany,

Tala sent over the turnkey working files that we share with developers when they start their design phase. You can review them now to get an idea of the expectations once we reach this phase of the projects. Just note these are living documents and may be slightly updated when you start the design phase.
