Subject: Follow-Up from DSAP & Google West Project Community Meeting

[External Email]

Dear Residents,

Earlier this week, my office hosted a community meeting on the Diridon Station Area Plan (DSAP) and the Google West project. With many new changes expected for our City, concerns were raised on how this project would affect current residents' quality of life. My goal is to ensure that as we move forward, there continues to be ample opportunities for our community and residents to be heard at every step of this process.

This meeting was recorded and is available to view [here](#). Below please find links to the slides presented by City staff and Google, as well as some additional resources.

If you have questions, District 3 staff can still be contacted through our traditional channels, including [phone](#) and [email](#).

Sincerely,

Raul Peralez
Councilmember, District
City of San José
