[External Email]

Hi Lori,

I checked with the team, this is fine to use for the flier. You may also consider using The Gateway rendering, attaching a high-res version as requested.

For either rendering, please include the language "**Artist conceptual rendering, subject to change**"

Thanks! Jess

Hi Jess,

We would like to put an image on the flyer for the March 20th community meeting. I was thinking the attached framework one. Is this okay or does your team have a different image to suggest?

Thanks!

Lori
