Got it, thank you!

Hi again Amanda,

I reread your email and realized that the colors may have been more confusing than helpful. The yellow and brown I cited are what's in our DSAP images - and of course just to confuse you the browns are opposite of yours!

So to be clear: Julian is a City Connector east of Montgomery and a Local Connector west of it.

Thanks!

Yes, Julian east of Montgomery is designated as "City Connector" (yellow) and west of Montgomery as "Local Connector" (brown).

Best,
Jess

Hi Jess & Florin,

Quick question for you, we are finalizing our GP 2040 Amendment Figures (relating to the Land Use Transportation Diagram) and I wanted to confirm that Julian east of N Montgomery Street should in fact be reflecting city connector (brown). Also note, that we have rest of North Montgomery (limits showing only whats in the GP Diagram) shown as on-street bike facility consistent with the DSAP.

We are finalizing everything for Monday so I appreciate your quick review on this.

Best,
Amanda
