Kevin,

The following time windows work well for us:

1. Wednesday, February 24- 1:30 pm to 4:30 pm EASTERN
2. Thursday, February 25- 3:00 pm to 4:30 pm EASTERN
3. Friday, February 26- 3:00 pm to 4:30 pm EASTERN
4. Monday, March 1- 1:00 pm to 4:30 pm EASTERN.

I hope one of these windows will work for you. If not, please suggest some others.

Sincerely,

Gary

Gary Leatherman, Ph.D.

Hello Gary,

It's a pleasure to meet you, Michelle and Tom via email, as well. I appreciate your interest in the project and discussing how Advisian might help.

It sounds like you also think a meeting between Advisian and the City to discuss your thoughts and ideas would be a good next step. My schedule is fairly flexible, so I'd like to suggest that your team provide me with some dates and times when we can discuss via video conference over the next week or two, and I'll send out a zoom invitation based on our collective availability. Of course, if you have any suggestions on a different approach, please let me know.

Regards,

Kevin O'Connor

Huimin, Thanks for the introductions. This looks like a very exciting and important project. Happy to help in any way we can.

Kevin, It is a pleasure to meet you via email. I look forward to talking to you about this effort. Please note I have added two of our key people to this email chain, Tom Bucher and Michelle Isenhouer Hanlin, to facilitate communications and get their insights on this interesting project.

Best regards,

Gary

Good Evening Gary,

I would like to introduce you to Kevin O'Connor. Kevin is from City of San Jose Community Energy Department. Community Energy Department has a task for a microgrid consultant to help out on City's downtown west project. Attached is the detailed information regarding this project's background, status and the scope/expectation from consultant. Kevin will reach out to you in the next day or two to set up a meeting to talk about this task. If you have any thoughts and ideas regarding this task, please feel free to share with Kevin.

Huimin Mu, S. E., P. E., QSP/QSD

Senior Engineer

City Facilities Architectural Services Division

Public Works Department
