Hi Sheela-

You requested information about where the radius for our park fee nexus is memorialized. The State of California Quimby Act allows for park fees to be used within a nexus that is defined by the community. San Jose's nexus is defined in our 2009 Greenprint (see chapter 3)  
<https://www.sanjoseca.gov/your-government/departments-offices/parks-recreation-neighborhood-services/general-information/policies-reports/residents>

This is guiding document that we still use today when determining where fees are spent. My capital budget team tracks the location that pays the fees and we use GIS to ensure we are meeting the nexus requirements.
