Hi Zak,

I believe Google is expecting no new comments from the City at this point. Unless there were items not addressed by them (from Nicole previously), we need to wrap things up. However, if you have significant comments that still need to be discussed, do you mind reaching out to Google directly, so updates can happen more quickly? (Paul or Duanne @ Google) The resolutions are being finalized next Tuesday.

Thanks!

Vivian

Hey Vivian,

I am looking to schedule time with our parks team to look at the maintenance matrix and may have some additional comments we would like to send your way to be submitted. We are under the impression this is still possible. Assuming so, do you have a deadline for comments? The earliest I was able to find time with our parks team was Monday, which I am hoping I won't have to push out.

For context, the is concerned that the maintenance matrix may be attempting to hold the public parks to a higher standard than is traditional. The anticipated increase in cost that may result in has not been discussed with the applicant. My meeting with the parks team is intended to determine whether this concern is valid, so comment would only come your way if we made that determination.

Thanks,  
Zak

Zak-

The attached file is a page of the maintenance matrix included in the DA. It frames out a series of requirements and standards for park maintenance that we did not discuss. Can you please review this with Avi (or whoever from his team he recommends) and make recommendations on what standards the city can actually meet? We may need to require modifications to this as a condition of approval.

I was going to send this to Torie but I see she is out and I suspect we will need to provide comments to Vivian ASAP.

-Nicolle
