NEW NON-RESIDENTIAL DEVELOPMENT PAY A COMMERCIAL LINKAGE FEE FOR THE PROVISION OF

AFFORDABLE HOUSING

WHEREAS, the City Council of the City of San José ("Council") has a long-established

policy and practice of recognizing the need to facilitate the availability of housing

products at different levels of affordability in order to address the housing needs of the

entire community; and

WHEREAS, the Council desires to adopt a fee to help address the increased need for

affordable housing generated by the development of new non-residential development

("Commercial Linkage Fee"); and

WHEREAS, the Council has caused a study to be prepared that establishes the

increase the supply of new affordable housing; and

WHEREAS, that study, prepared by Keyser Marston and Associates, entitled

"Nexus Analysis of Proposed Commercial Linkage Fees" dated July 2020 ("Nexus

Study"), which has been made available for public review on the City's website,

evaluates the need for affordable housing generated by various types of non-residential

uses in the City, demonstrates that such a nexus exists and that the use of a

Commercial Linkage Fee for the purpose of increasing the supply of affordable housing

in the City of San José ("City") is justified, and determines the maximum impact fee

amount for the various types of non-residential uses based upon the generation of

affordable housing needs; and

intended to support the provision of affordable housing by the City by contributing to the

funding of the City's existing affordable housing programs that do not provide for the full

funding of local housing needs; and

WHEREAS, the Council has also caused a study, prepared by Keyser Marston and

Associates, entitled "Feasibility Analysis of Proposed Commercial Linkage Fees" dated

July 2020 ("Feasibility Study"), which has also been made available for public review on

the City's website, to inform the Council of the economic effects of the fee evaluated in

the Nexus Study which analyses the economics of a range of prototype non-residential

projects in various geographic subareas of the City and their ability to sustain a new

fee; and

WHEREAS, the Council has determined that the Commercial Linkage Fee should be

established consistent with the requirements of California Government Code Section

66000 et seq., commonly referred to as the "Mitigation Fee Act," without determining

that it is required to do so; and

WHEREAS, the Council has, consistent with the Mitigation Fee Act, published twice in

review for such specific development pursuant to the California Environmental Quality

Act of 1970, as amended ("CEQA"); and

WHEREAS, the Council has considered the Nexus Study, the Feasibility Study, and the

NOW, THEREFORE, BE IT ORDAINED BY THE COUNCIL OF THE CITY OF

SAN JOSE:

SECTION 1. Chapter 5.11 is hereby added to Title 5 of the San José Municipal Code

to read as follows:

Chapter 5.11

COMMERCIAL LINKAGE FEE

5.11.010 Purpose and Findings

A. The purpose of this Chapter is to facilitate the development and availability of

housing affordable to a broad range of households with varying income levels

within the City of San José by adopting a Commercial Linkage Fee that will

supplement other public funding sources for Affordable Housing in the City of

San José.

B. The City's Envision San José 2040 General Plan recognizes that Affordable

Housing is a critical component to the City's economic and social health.

Establishing a Commercial Linkage Fee to assist in financing Affordable Housing

production is consistent with and will implement the General Plan's Housing

goals and policies for Affordable Housing, which include the following:

Facilitating the provision of housing across location, type, price and status as

rental or ownership that respond to the needs of all economic and

demographic segments of the community (Policy H-1.2).

• Encourage purchase assistance programs for "starter" housing (Policy H-1.6).

T-36631 / 1735995_8.doc Council Agenda: 09-01-2020

Item No.: 8.2(c)(1)

• Facilitate the production of extremely low-, very low-, low-, and moderate-

income housing by maximum use of resources at the federal, state and local

levels (Policy H-2.1).

Preserve and improve San José's existing affordable housing stock and

increase its supply such that 15% of all new housing stock developed is

affordable to low-, very low-, and extremely low-income households (Goal H-

2).

Facilitate the production of affordable and safe housing for workers who

provide goods and services to San José residents and businesses (Policy H-

12.8).

Facilitate housing that is affordable to those employed in population-serving,

business-support, and driving industries. (Policy H-1.10).

Provision of affordable moderate-income housing (Policy H-2.1).

• Encouragement of purchase assistance programs for starter housing (H-1.6).

C. Providing Affordable Housing for new employees in lower- and moderate-

income jobs locally (rather than leaving those employees to obtain housing in

lower cost areas far from San José employment centers and transit corridors)

helps implement the General Plan policy aimed at minimizing housing's

contribution to greenhouse gas emissions and locating housing to reduce vehicle

miles traveled and auto dependency. If the increased demand for Affordable

Housing is not addressed within San José it will cause such housing to be built

elsewhere, in areas with lower land values that are far from City employment

centers and transit corridors, and the resulting commuting will cause increased

traffic and transit demands and consequent noise and air pollution.

T-36631 / 1735995_8.doc Council Agenda: 09-01-2020

Item No.: 8.2(c)(1)

D. If the increased demand for Affordable Housing is not addressed within San José it may also impact economic growth in that businesses within the City may find it more difficult to attract and retain the variety of workers that they need.

- E. Development of Affordable Housing using Commercial Linkage Fee funds to increase the supply of Affordable Housing also implements policies of the State of California to: (1) provide sufficient capacity for new housing affordable at all income levels necessary to accommodate the State's future economic growth; and (2) by providing housing for lower- and moderate- income retail and service workers, long commutes from less expensive housing markets can be avoided and thus contribute to the implementing the Global Warming Solutions Act of 2006 and the Sustainable Communities and Climate Protection Act of 2008.
- F. State housing policy requires the City to assist in the development of adequate housing to meet the needs of extremely low-, very low-, low- and moderate-income households. There is a significant shortage of housing affordable to low-and moderate- income households, which will only increase as the finite number of residentially zoned parcels within the City are purchased and developed for market rate residential developments. This loss of residential land available for Affordable Housing is another impact of market rate residential development.
- G. The requirements of this Chapter are based on a number of factors including, but not limited to, the City's long-standing commitment to economic diversity; the serious need for Affordable Housing as reflected in local and State housing laws, regulations, and policies; the demand for Affordable Housing created by Non-Residential Development; and the impact that the lack of Affordable Housing production has on the health, safety, and welfare of the City's residents including its impacts on traffic, transit and related air quality impacts, and the demands placed on the regional transportation infrastructure. Imposing a fee that is reasonably related to the burdens created by new Non-Residential Development on the City's need for Affordable Housing will enable the City to fund

development of Affordable Housing units that will contribute to addressing these

impacts and fulfilling these goals.

H. The City has prepared a Nexus Study which shows, and the City Council finds,

that there is a reasonable relationship between the purpose for which the fees

established by this Chapter are to be used and the type of development projects

on which the fees are imposed, between the need for affordable housing and

nonresidential development and between the amount of the fees and the cost of

the Affordable Housing units or portion of the units attributable to the

development on which the fees are imposed. The Nexus Study complies with

the requirements of California Government Code section 66001(A)(4) by

establishing the reasonable relationship between the need for affordable housing

and non-residential development.

I. It is the intent of the City Council that the fee required by this Chapter shall be

supplementary to any conditions imposed upon a development project pursuant

to other provisions of the Municipal Code, the City Charter, the Subdivision Map

Act, the California Environmental Quality Act, and other state and local laws,

which may authorize the imposition of project specific conditions on

development.
