Morning Nicolle,

The slide is just reiterating the main points we have been trying to hammer home. At this point, I think we could remove it and focus newer information in the slides before. I am not sure where the graphic came from also, I was digging through our files and could not find it.

I would agree, I think we can delete the slide.

ZM.

Zak – I'd like to suggest that we delete slide 44 as it seems to go off on a tangent from DTW project. If we do keep it then we need to replace the graphic. Can you tell me what you think?
