Hi John,

Agendadesk received some more Letters from the Public regarding Google. Will below be one of your items?

Regards,

[External Email]

Hello

As a San Jose resident I am very concerned about the development plans for Google. If the last year in lockdown taught this area anything it is the need for large venues to host events to allow the public to return to a state of normal. Allowing a tech giant like Google to bully the city into getting their way will negatively impact venues such as SAP. The majority of the population still drives cars and that is not going to go away anytime in the near future, especially with all the funding delays in public transportation. Do not allow Google to remove any downtown parking. I am already seeing a negative impact where I live on 11th street after the repaving project that removed several parking spaces on my street and now my driveway gets blocked by people parking 2 to a space previously allocated for 1 car. This problem is only going to get worse when Google moves downtown. There needs to be enough parking for SAP and Google. IF San Jose were to lose SAP center and the San Jose Sharks it would devastate the city. As a resident and tax payer of downtown San Jose I suggest in the deal with Google more parking garages be created that are multi use. Dont' let a large corporation with sexist practices win. Google is not a good neighbor or example for a business.

Best Regards

Stacy
