Kevin:

Thanks for the "heads up" It would be great to be able to see the info Paul showed on the screen last Thursday before the meeting.

Subject: Wednesday's EWG meeting

Barry and Doug,

I just got off the phone with Cindy and we are going to resume our Wednesday afternoon Energy Working Group (EWG) meetings this week. For this Wednesday, I suggested that we provide an update on the SIS. If we need any additional information from Google following our meeting with PG&E earlier that day, we can make the request at the EWG meeting. We might also have additional information to share about the larger project approval status, reimbursement funding, next steps related to the term sheet, etc.

Also, I'm waiting for the information from Paul that he discussed last Friday. Once I have it and understand it better, I'm thinking we need to have a meeting to discuss our approach to moving things forward.
