---

Hi Bill,

I'm struggling with the flow a bit but here are my slide comments:

1. Slide 19 - Hudson Yard - consider adding on "Onsite reuse of rainwater" as that is their water related district system. Slide 17 still says this project is a good example of district systems in an urban setting but it only covers rainwater reuse so that should be clear.
2. Slide 21 - Can we note that these are all "Conditions of Approval" in the slide title as the previous draft showed?
3. Slide 23 - Edit third bullet under odor to say "Overall odor controls overseen by BAAQMD" as the City does have a role in review via the mitigation monitoring and muni code
4. Slide 25 - I don't understand what this slide will cover - can we just drop it?

-Julie

All,

This is the working version as of this morning. Please review and confirm it's how we want to go.

Thanks,

be
