Hi Jim:

Jess wants to schedule a meeting with Franziska to review two things before publishing a memo for us: 1) the quality checked Ingress Analysis; and 2) overview of approach to discuss methodology differences between the SimTraffic work and the procedures I used for the Autumn Assessment. *I think this is a great idea.*

I would think you, me and Michelle/Mike would represent SSE well. What are your thoughts? Perhaps mid-late week next?

Thanks,

Paul

Hi Paul,

I heard back from F&Ps today that they have finalized their QA/QC and are starting to draft up a memo for us to review. They also shared that they are articulating some of the differences between methodology / tools etc. between your work for the intersections along Autumn / Barrack Obama Boulevard and the ingress network simulation.

Can we set up some time for next week (with you and Jim, others at your discretion) to walk through both of those items?

I'm just looking at my calendar for next week, and Tuesday afternoon (4/27) between 3-5 is currently flexible for me. Might that work for you?

I'll ask F&Ps as well.

Best,  
Jess

Thank you, Paul!

Good question. I don't know, but let me ask!

Best,  
Jess

Hi Jess:

Seems like you don't have a lot on your plate (NOT!!), so I thought I'd ask you if you know when we'll get to look at a report of sorts on the ingress analysis.

No rush, just wondering.

Thanks!

Paul
