Subject: New Google Center & SAP Center Parking

Hi

I strongly support the downtown west mixed use plan for Google, mixed use, homes and parks.

The SAP Center/Sharks request to preserve thousands of parking spaces is not a productive use of our spaces. Spectators and audience members have alternative methods of transportation to successfully and easily get to the SAP Center. Reducing the number of spaces will likely have no impact on their matches or shows, but utilizing those spaces in a more productive manner will have a huge impact to everyone else.

Regards
