Cheryl, I agree the submittal doc changes are minor and do not affect the messages.

Subject: Prepping MO with talking points for Tues Google Project item

Tim, Robert, John, David - For Tuesday, the Mayor's Office will field media inquiries relating to the Google Project/DSAP Council item. Elisabeth is covering the details of the DA and community benefits. Colin Heyne (DOT) is covering parking/Sharks issue. PRNS is handling anything about parks.

I'm not sure we have any messages to update for Planning's specific message map, attached, since the time this went to PC in April.

I know some submittal docs were updated, but I don't believe those updates had significant changes in them ...?? If they did, maybe we add a sentence about what has changed. Largely, I believe Planning's project review process and info is well explained at www.sanjoseca.gov/GoogleProject and the DSAP webpage, www.sanjoseca.gov/DSAP.

Also, while MO has asked to be on point for media, there is always a chance that a technical media question will get referred to us, and we should be ready for that.

Thank you,
Cheryl
