[External Email]

Hello Ms. Davis,

Greetings and hope you are doing well.

I'm Adithya, a sophomore at Branham High school in the Cambrian park area under San Jose, falling within the jurisdiction of the District 6 committee. I'm also an active ASPL in Troop 286 of the Boys Scouts. As I understand, the city council committee with leaders like you have been meeting on the Google Downtown West Mixed - Use Development project. I have also been following social media updates and news in the broadcasting media about the Google San Jose project and the varying mixed opinions from the residents of San Jose.

As a community member and a young Scouts leader, I feel obligated to contribute to social justice and housing for all with a strong sense of belief in collaborating with tech marvels like Google Inc to avail their corporate social responsibilities for the welfare of the society and the community. In this lieu, I would like to seek an opportunity to interact with you on the development related to this project to contribute towards this good cause. Additionally, within the time I seek with you, I would like to learn your opinion on

- The 5 year big picture view of this project
- Leadership consensus on the top 5 commitments we will have from Google
- Development zones identified in San Jose district
- Roadmap for housing and shelter development & addressing homelessness
- Possible low cost tech innovations in housing development

Please guide me on the way to get in touch with you to find a suitable slot in your calendar. Alternatively, I'm open to attend your public briefing meetings too, (preferably in the afternoon slots beyond my school hours) to have a chance to interact and talk to you.

Hope to hear from you soon.

Thanks
Adithya Nair
