Subject: Single family housing

[External Email]

Hi Dev,

As a Rose Garden resident, I am interested in City policy developments regarding single-family zoning and:

- The downtown Google Project build-out that surrounds Park Avenue
- State laws / bills focused on more multi-family housing

I have tried reading various documents on the City's Planning website, including zoning and the 2040 Plan, but it is a bit overwhelming.

I am a retired and long-term resident of the area, and I recognize there are valid pressures to increase / modernize the housing supply, which has implications for zoning changes.

I would be interested in your thoughts or any documents you think relevant.

Thank you.

- Robert Mackenzie
