Hi Shannon,
My comments highlighted in the document have been addressed.

Thank you!

Dana Peak Edwards

Hello,

ESA provided a PDF of revisions made in response to City comments. Refer to the attached PDFs and the following message from Karl at ESA (italized). You can search for your name in the PDFs, as the comments made are included to determine if specific comments you made have been adequately addressed. DOT and PW, there are no comments from you in advance of receiving the revised LTA and parking memo, but I'm including you on this email, so you can review tracked changes in the Project Description to ensure the changes are in line with your current understanding of transportation improvements and parking associated with the project.

This should be a quick exercise. If you have any issues with the changes made, insert a comment into the PDF, and email it back to me by replying to this email, and cc Johnny to preserve attorney-client privilege. I will consolidate comments, if necessary, before sending to ESA.

Attached please find 52 pages from the Screencheck DEIR for Downtown West. These pages show the revisions we have made to address City staff comments in accordance with our discussions last week. (We are not included pages for which revisions were made on the screen and agreed to by all parties. Also note that a few of the pages in the attached "Screencheck2 Excerpts" document do not contain revisions but are provided for context, so you can tell where you are in the document.)

Also attached is a revised version of the complete Project Description, albeit without figures, so you can see revisions in response to City comments there, as well.

*Revised text in response to City comments is highlighted **blue**.*

While we are not expecting additional comments, we would appreciate hearing from you by COB this Thursday, September 24, if you see anything that requires additional discussion or correction.

Thanks!

Shannon Hill, Planner
