[External Email]

Hey Mike,

None of the 4,000 units will not be affordable. They say 25% less market, these units will all over be a million dollars each, so the lowest price would be \$750,000, that is too high for most people.

Also, all new units should be for San Jose residents only, not for more people to move here from other places.

Just my opinion,

Hector N
