---

**Dear Community Members:**

The City is working with Google to prepare a Development Agreement (DA) for their proposed project - Downtown West. We had scheduled meetings with the Station Area Advisory Group (SAAG) and community to discuss the DA on March 22 and March 27, respectively.

However, it is taking longer than anticipated and we need more time to verify the detailed legal language and prepare the presentation materials. We must reschedule the meetings to a later date, which we will announce when we are sure all the documentation is ready to go.

We are working hard to develop a DA that will effectively deliver benefits to San José and to describe the contents of the DA to the public in a clear way. We value the community's time and want to make sure the DA and support materials are ready and posted in advance of the SAAG and community meetings, so that our discussion is productive.

We will share the new dates as soon as they are scheduled.

Thanks,  
Lori

**Lori Severino**

Diridon Program Manager
